

**OZDEMIR Ozkan, Dr.**  
**Acibadem University**

Özkan Özdemir completed his undergraduate education in the Marmara University Biology department in 2007. After completing his master's degree in the Department of Immunology at IU Aziz Sancar Institute of Experimental Medicine in 2010, he fulfilled his Ph.D. in the Department of Genetics at the same institute in 2017. In this process, Özkan Özdemir, who worked as a researcher in many national and international projects related to epilepsy genetics, founded the Genus Research and Development Company in 2014. He worked as a bioinformatics specialist at Acibadem Labmed Genetic Diagnosis Center in 2018. Özkan Özdemir started to work as a postdoc researcher in Dr. Sebahattin Çırak's laboratory at CMMC at the University of Cologne in 2019. In 2021, he returned to Turkey due to the pandemic. He began to work as a postdoctoral researcher at Acibadem University and as the supervisor of ACU Biobank. Özkan Özdemir, who has published articles containing high output data on epilepsies and rare diseases, continues his studies at Acibadem University.
